The new CEEEOACH®

Partner in Outdoor Sports

Easy group communication for connecting instructor and students in snow ski sports.

With the new CEEEOACH® 2-6 participants can communicate over a distance of up to 500 meters (1600 ft) without a smart-phone or mobile phone network using modern Bluetooth® technology.

The communication system that networks even without a network - handy, lightweight, sturdy and intuitive to operate.

All functions can be controlled with just three buttons. The wave-shaped design of the CEEEOACH® enables optimum operation, even when wearing gloves or without looking at the device.

Three individual configurations can be set up easily (Trainer, Participant and Private Mode).

It's so simple that children can easily use it. You can handle it even with gloves on and without looking at the CEEEOACH!"

Martin Brandlhuber

DSLIV-Instructor
German Ski Instructors Association

More reliable than standard radio systems

Crystal clear sound

Simultaneous talking with Full-Duplex

Red-Dot® awarded design

Splash- and dust-proof

Easy and intuitive operation

Fast Plug & Play connection

High battery performance

Easy selection between three modes

Trainer Mode

The trainer talks - up to 5 participants listen.

Participant Mode

The participant and trainer can speak with each other, all other participants can only listen in.

Private Mode

The trainer can place an active conversation into Private Mode. Then the other participants cannot listen in.
